أول مختبر معتمد في الشرق الأوسط من قبل المنظمة العالمية للمجوهرات CIBJO وصاحب العضوية
رقم 13 عالمياً، معززا بذلك مكانة دبي كمركز عالمي للذهب

THE WORLD JEWELLERY CONFEDERATION

REGISTRATION OF

THE NATIONAL DIAMOND MASTERSET FOR THE

UNITED ARAB EMIRATES

A set of seven diamonds was selected and compared with the CIBJO diamond master set C1, in accordance with article 8 paragraph 3 and 4 of the CIBJO diamond book. The CIBJO registration laboratory commission approves this set to form the UNITED ARAB EMIRATES national CIBJO diamond master set: "C2 UAE master set".

The colour positions of the seven C2 UAE masterstones are given hereafter according to the CIBJO C1 colour scale.

	D	E	F	G	H	J	L
C2 UAE	■	■	■	■	■	■	■
masterstone	no.1	no.2	no.3	no.4	no.5	no.6	no.7
weight (ct)	1.004	1.009	1.011	1.016	1.025	1.021	1.001
height (mm)	4.057	3.980	3.782	4.094	3.946	3.984	3.768
SSEF report	38265	38266	38335	38267	38268	38269	38334

Important notes

- A CIBJO masterstone always defines the darkest colour of a colour range. Therefore, while grading the colour of a diamond in comparison with the C2 UAE masterset and due to the specific position of its diamonds on the CIBJO C1 colour scale, the following recommendations shall be granted:
 - The colour of a diamond shall be graded "exceptional white + (D)" when it is lighter than that of C2 UAE masterstone no.1.
 - The colour of a diamond shall be graded "exceptional white (E)" when it is equal to that of C2 UAE masterstone no.1 or when it is lighter than or equal to that of C2 UAE masterstone no.2.
 - The colour of a diamond shall be graded "rare white + (F)" when it is lighter than or equal to that of C2 UAE masterstone no.3.
 - The colour of a diamond shall be graded "rare white (G)" when it is lighter than or equal to that of C2 UAE masterstone no.4.
 - The colour of a diamond shall be graded "white (H)" when it is lighter than or equal to that of C2 UAE masterstone no.5.
 - The colour of a diamond shall be graded "slightly tinted white (I/J)" when it is lighter than or equal to that of C2 UAE masterstone no.6.
 - The colour of a diamond shall be graded "tinted white (K/L)" when it is lighter than or equal to that of C2 UAE masterstone no.7.
 - The colour of a diamond shall be graded "tinted colour" when it is darker than that of C2 UAE masterstone no.7.
- A fluorescence masterset described on SSEF Test Report No. 38344 completes the C2 UAE national masterset.
- The seven first CIBJO Diamond Reports emitted by the CIBJO registered laboratory of the United Arab Emirates shall describe stone no.1 to stone no.7 of the C2 UAE masterset.
- The CIBJO registered laboratory of the United Arab Emirates shall regularly check the identity of the seven C2UAE masterstones.
