DCLD CIRCULAR (PCAS)
FREQUENCY OF READY MIX AND PRECAST TECHNICAL INSPECTION AND
FACTORY SURVEILLANCE AUDIT

To All Ready Mix Concrete and Precast Certified Clients :

With reference to Dubai Central laboratory Circular 001798 dated 07 June 2017 for revising the frequency of factory surveillance, we would like to clarify the below:

1. Technical Inspection visit for plants and trucks of certified ready mix and precast factories shall be continued on yearly basis; while the factory surveillance audits for the quality management system shall be done once-per-three years-cycle.
2. Renewal of certification shall remain on annual basis, and the renewal fees will remain the same;
3. The schedule of the technical inspection will be as per the plan prepared by DCL based on frequencies mentioned under point 1 above. Clients will be notified on when their factories are due for inspection and surveillance visit;
4. In case of unexpected situations or disruptions in productions or as decided, DCL may require to audit or inspect the factory in order to ensure that the factory continues to produce the product according to the specified requirements.

For any clarification, please contact DCL through certification@dm.gov.ae .

Thank you for your cooperation.
