

**Educational Qualifications Required For The License Owners ,Manager, and Technical Staff of Local offices of
(Construction Engineering Services and Architectural Design Consultancy)**

Category and grade	License holders/Manger		Technical staff		Notes
	local	Others	Number of technical staff	Years of Experience	
First UL	10 years	15 years	3	architects	10 years
			3	Structural Engineer	10 years
			1	Engineers	Any experience & any specialty
Second G+12	5 years	7 years	2	architects	7 years
			2	Structural Engineer	7 years
			1	engineer	Any experience & any specialty
Third G+4	3 years	5 years	1	architects	5 Years
			1	Structural Engineer	5 Years
			1	engineer	Any experience & any specialty

- The required qualification for both licensees, managers and technical staff is : Bachelor of Civil or Architect. Engineering.
- The full-time licensee (owner) is considered part of the technical staff .

Local engineering offices (or branch of foreign engineering offices) with the activity of:
Projects Management Engineering & Technical Feasibility Studies Services (742138)

Category and grade	License holders/Manger		Technical staff		Notes
	local	Others	Number of technical staff	Years of Experience	
(unclassified)	10 years	15 years	3	architects	10 years
			3	Structural Engineer	10 years
			1	Engineers	Any experience & any specialty
First UL	10 years	15 years	3	architects	10 years
			3	Structural Engineer	10 years
			1	Engineers	Any experience & any specialty
Second G+12	5 years	7 years	2	architects	7 years
			2	Structural Engineer	7 years
			1	engineer	Any experience & any specialty
Third G+4	3 years	5 years	1	architects	5 Years
			1	Structural Engineer	5 Years
			1	engineer	Any experience & any specialty

- Please see Circular No. (162) for the year 2008 regarding: Criteria for registering, licensing and practicing activity: [Engineering Project Management Services]

Local engineering offices :

Category and grade	License holders		Technical staff		Notes
	local	Others	The minimum number of technical staff	Years of Experience	
(unclassified)	3 Years	5 Years	Technical staff for each activity	5 Years	<ul style="list-style-type: none"> License owner with full time commitment to the office is considered one of the technical staff. Requires (1)engineer for each activity

- (Unclassified) are engineering offices engaged in activities that are not classified by degrees and categories.
- The required academic qualification for each of the license holders, the manager and the technical staff is: Bachelor of Engineering in a scientific specialization suitable for the licensing activity.

Branch of foreign engineering offices :

Category and grade	The minimum number of technical staff	Years of Experience	Notes

	Manager	15 years	
	Technical staff for each activity (Chief Specialist)	15 years	
	Technical staff for each activity (Associate)	7 years	

The Associate Engineering Firm: the local engineering firm classified in the first category may associate with a foreign engineering firm to carry out some specialized engineering works, provided that such firms should have previously practiced the engineering profession for a period not less than 10 years inside or outside the country in the field required to be licensed.

Municipality's vision: Developing a happy and sustainable city

Standards Licensing / Renew license Registration for Consulting Engineering Offices				
Category	Grade	Standards		
		No of engineers		Office area (m2)
		standards	*minimum	
Third	Ground +4	3	2	100 m2
Second	Ground+12	5	3	150 m2
First	Un Limited	7	5	200 m2

•No of engineers is the minimum requirement to activate license registration and are increasing directly with the growing area of projects (ongoing+ under design) as standard area for each engineer.

•Engineering consultancy activities are licensed only in offices, according to the following areas:

Local Engineering Offices:

Minimum office area required for engineering offices engaged in infrastructure activities **100 m²**.

The minimum office area required for the engineering offices engaged in sub-activities is **80 m²** for local offices licensed with one activity, **150 m²** for Two activities , and **200 m²** for more than two activities .

Foreign engineering offices and participation branches:

Minimum office area required **150 m²** licensed with one activity and **200 m²** for two activities .

Standards Licensing / Renew license Registration for Consulting Engineering Offices

Category	Grade	Projects area for each Eng.(COTA)
Third	Ground +4	6000 m2 /each engineer
Second	Ground+12	7500 m2 /each engineer
First	Un Limited	9000 m2 /each engineer

- No of engineers is the minimum requirement to activate license registration and are increasing directly with the growing area of projects (ongoing+ under design) as standard area for each engineer.
