## BIOCIDAL PRODUCTS:

A biocide is intended to give antibacterial, antimicrobial, disinfecting or sanitizing properties with the intention to destroy, make harmless or control harmful organisms such as bacteria or viruses by means other than mere physical or mechanical action

## HOW TO KNOW IF A PRODUCT IS A BIOCIDES?

The label of a biocidal product will claim a biocidal effect such as;

- Antibacterial,
- Antimicrobial,
- Antifungal,
- Sanitizing, and
- Disinfectant, ... etc.

## SAFETY MEASURES THAT SHOULD BE COVERED WHILE USING PROFESSIONAL USE / BUSINESS-TO-BUSINESS "B2B" BIOCIDES PRODUCTS:

The supplier of professional use product should provide safety data sheet / technical data sheet when selling the product to the end users professionals which should cover the below:

- The **name(s)** of the **biocidal active ingredient(s)** and its **concentration** in the product
- The **type of product** formulation
- What the product is **approved** for (Scope)
- Details of any **restricted** users i.e. for general public or professional/industrial use only
- **Instructions** on handling, storage, application, use and disposal of the biocide,
- Details of any **protective clothing or equipment** which must be worn when using the biocide, and
- Whether **access to treated areas** needs to be **restricted**.
