

Technical Seminar on Green Building Products

Dubai Central Laboratory has conducted a Technical Seminar on Green Building Products for its employees and External Customers on Monday, 8th of February 2010. Major topics like VOC (Volatile Organic Content), building products contribution to Internal air quality, LEED certified Buildings etc. are covered under various presentations given by the Italian Experts from MAPEI.

The technical seminar was attended by the members of Dubai Green Building High Committee, various technical experts among DCL customers & employees.

The event was organized by Dubai Central Laboratory & Sponsored by MAPEI - Innovative Building Solutions LLC
