

Planning and Governance Sector

Nasser BuShehab

CEO - Planning & Governance Sector

Nasser Bushehab had held the position of CEO, Strategy and Corporate Governance Sector at the Roads and Transport Authority in Dubai. Bushehab has practical experience of more than 24 years, during which he had held several leadership positions. He holds a Bachelor's Degree in Architecture from the UAE University and a Master's Degree in Urban Planning from the American University of Sharjah. He rose to the positions he held during his career starting from Head of Planning Studies and Logistics Support Section in Dubai Municipality, then Assistant Director of the Bus Department in the Municipality. Later, he became Director of Projects Department and then Director of Strategic Planning Department at RTA. In 2015 Bushehab was appointed as the CEO of the Strategy and Corporate Governance Sector.

He has also chaired several important committees in RTA, including the Committee for the Best Government Entity Supporting Expo 2020, the Higher Committee for Sustainability in RTA, the Higher Committee for Supervising the Administrative System of Maintenance Work in RTA, the Higher Committee for the Development of the Tourism Transport Sector in the Emirate of Dubai, the Supervisory Board for the Management and Operation of the Unified Control Center, the Higher Committee for Transportation Integration Elements, the Energy and Green Economy Committee, the Higher Committee for the Dubai Award for Sustainable Transport, the Executive Committee for Strategic Planning and Corporate Development, the Projects and Contracts Disputes Committee, in addition to the Emergency and Crisis Management Team.

Bushehab received the medal of His Highness Sheikh Mohammed bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, for distinguished national work, in addition to many certificates and medals in honor of him for his outstanding achievements during his career, the most important of which is his contribution to the establishment of RTA, and to Dubai's winning the Expo 2020, as well as for preparing the UAE strategic plan and vision for 2021.

Waste & Sewerage Agency

Adel Al Marzooqi

CEO - Waste and Sewerage Agency

Al Marzooqi worked in the RTA, and has extensive experience, exceeding 20 years, in the field of infrastructure projects and services, which is concerned with studying and reviewing the planning and designs of strategic infrastructure projects to achieve the strategic objectives of providing integrated road networks that meet all international standards, in line with the vision of the RTA in the Emirate of Dubai towards achieving the RTA's vision of "global leadership in easy and sustainable mobility".

He holds a Higher Diploma in Civil Engineering, a Bachelor of Civil Engineering, and a certificate from the Mohammed bin Rashid Program for Leadership Development.

He has held several positions, including Director of the Right of Way Department, , which includes five sections in its organizational structure, and more than 131 employees concerned with organizing infrastructure works and working within Right of Way in the Emirate of Dubai, in addition to monitoring and inspection on existing works within these Right of Ways. It includes the planning, developing and setting strategic and executive plans and managing systems affiliated to the management of Right of Way to provide the best possible services.

During his career, he also held several positions, including Chairman of the Sub-Services Coordination Committee, Chairman of the Qualification Committee for Service Contractors and Subcontractors, Head of the Emergency Team at the Traffic and Roads Agency, and a member of the Executive Committee of the Crisis and Disaster Management Team in Dubai, in addition to many responsibilities and tasks.

Buildings Regulation & Permits Agency

Maryam Al Muhairi

CEO - Buildings Regulation and Permits Agency

Maryam Al Muhairi has more than 20 years of experience in management at the government level in the areas of building management, geographic information systems and executive planning. She has high experience in information technology in the departments in the Municipality and other establishments. She possesses high technical experience in the management and strategic operations and the preparation of advanced programs and initiatives of economic and investment feasibility.

Al Muhairi obtained her MBA after her Bachelor's degree in Software Technology Engineering. She has completed the Executive Leadership Program for Governments and the Dubai Leaders Program. She held the position of Acting CEO, Engineering and Planning Sector in Dubai Municipality. She has managed six major departments specializing in planning, construction, public projects and surveying.

Al Muhairi led the GIS Center at the level of the Government of Dubai and chaired the Building Permits Development Committee. She supervises the Dubai Yards initiative concerned with increasing green spaces and elements supporting the quality of life. She was honored with the Best Technical Project Award in the Dubai Government Excellence Program, the Building Technology Award, the Excellence Award in GIS Implementation, the Special Achievement Award in GIS, and the Best Women Leader Award in the field of energy.

Environment, Health and Safety Agency

Naseem Mohammed Rafee

CEO - Environment, Health and Safety Agency

With a distinguished career spanning over 17 years, Dr. Naseem Mohammed Rafee is one of the foremost health and safety leaders in the region. Throughout her tenure at Dubai Municipality, she has managed vital portfolios in support of the strategic objectives of the Emirate, directly impacting the wellbeing of the citizens and residents of Dubai.

Currently Chief Executive Officer of the Environment, Health, and Safety Agency at Dubai Municipality, Dr Naseem previously held positions as Section Head of Consumer Product Safety, and Director of Health and Safety department. In her role of Director Dr Naseem led the Emergency, Crisis, and Disaster Management Team and the Coordination Committee for Health and Safety at Expo 2020. She is also a member of the National Product Safety Committee and the Higher Committee for general sale products registering in the country.

Academically accomplished, Dr Naseem serves as an Assistant Professor, teaching at several prestigious universities in the UAE. She holds a Ph.D. in Total Quality Management from Hamdan Bin Mohammed Smart University, a Ph.D. in Public and Occupational Health from the United Arab Emirates University and a Master's degree in Public Health Sciences from Hamdan Bin Mohammed Smart University.

Her other accomplishments include: winning the Hamdan Bin Mohammed Award for Smart Government for the "Montaji" project as the best government initiative for 2017; enabling Dubai Municipality to become the first municipality in the world to receive the ISO/PAS 45005:2020 for safe work procedures during the COVID-19 pandemic; being awarded several prestigious international awards such as Best Leader during the COVID-19 Pandemic and receiving the Emirates Women's Award in 2022 in the category of Leadership at the national level. She has numerous globally published specialized research papers and holds 21 intellectual property rights.

Public Facilities Agency

Bader Anwahi CEO - Public Facilities Agency

Bader Anwahi holds a Bachelor's degree in Information Technology for Business from Coventry University, in addition to a Diploma in Information Technology for Business from David Jim College in the UK. He is also a graduate of the Mohammed bin Rashid Al Maktoum Leadership Program in the category of influential leaders.

During the past seventeen years, Anwahi held several leadership positions, most notably the CEO of Global Village, which is considered one of the best family entertainment destinations in the world, and is the fourth largest entertainment destination in the world according to the number of visitors in terms of average daily turnout. Anwahi also held various positions from 2005 to 2017 at Emirates Integrated Telecommunications Company (Du), one of the main telecom service providers in the UAE.

Anwahi is considered one of the most prominent young leaders in the Dubai Holding Group, as he has diverse experience at various levels in the public and private sectors. He also supervised other entities and implemented a number of activities and projects at the level of the Emirate of Dubai.

Anwahi contributed to achieving exceptional successes and achievements at the operational, commercial and administrative levels, as Global Village achieved many prestigious awards, including the Mohammed bin Rashid Al Maktoum Business Award, the Dubai Service Excellence Program Award, and a five-star rating by the British Safety Council, and many others.

Thanks to his reliance on the digital transformation methodology to support operations based on data analysis, Anwahi also adopted the concepts of creativity and advanced technology to drive the expansion path of the Global Village and improve the experiences of its guests, and was able to develop pioneering business models and implement them in an integrated manner with his team.
