

**Circular No. (13-1-3) of 2023G**

**Dated 14/02/2023G**

**On/ (Engineering Excellence) Incentives for Engineering Offices**

**Messrs. Engineering consulting offices and construction contracting companies,**

**Greetings,**

Dubai Municipality seeks to enhance and sustain a culture of professional excellence in the fields of engineering consulting and contracting by creating a competitive environment that supports improving the quality of work in these two fields in a manner that positively serves the interest of the Emirate of Dubai. Pursuant to Circular No. (13-1-2) of 2022G on “Evaluation of Engineering Offices,” and Circular No. (13-2-2) of 2022G on “Evaluation of Engineering Contracting Companies”,

Dubai Municipality is pleased to inform you that it has set several incentives for engineering offices and contracting companies that receive a **(5-star)** rating in terms of engineering excellence, with the aim of motivating them to sustain excellence, as follows:

1. Exemption from annual periodic inspection of headquarters
2. The possibility of examining more than one application for projects of higher classes
3. Honoring the best engineering offices and contracting companies
4. Publishing names of those who receive a 5-star rating on the Municipality’s website, Dubai Building Permit System, and the Municipality’s social media sites
5. Any other incentives that the Municipality deems appropriate

One or more of the incentives referred to above shall be granted to the winning engineering offices based on their annual evaluation results according to the detailed criteria and their approved weights, at the end of each year, noting that these incentives shall be applied starting as of the date of the results of 2023G evaluation.
