

Circular No. (12-7-1) of 2021

Dated 23/08/2021

On/ Providing Guarding for Construction Sites

Engineering consulting offices and contracting companies,

Greetings,

All contracting companies and consulting offices shall provide the maximum safety requirements at construction sites with the aim of ensuring security and protecting lives and property through the following:

- Providing the necessary guarding at construction sites in a manner that is commensurate with the size and nature of the project.
- Closing projects where construction work has been halted in a safe and secure manner in accordance with approved safety requirements, and providing the necessary guarding in the event that there are materials, equipment, or property inside the site.
- Contacting Dubai Police General Headquarters on phone No. 901 for reports related to construction projects.

“This is a technical translation, in case of ambiguity Arabic version will prevail “
