	Document title:	متطلبات ترخيص المؤسسات الغذائية حسب نوع النشاط	اسم الوثيقة:	
	Doc Ref:	DM-FSD-GU69	رمز الوثيقة:	

Pre- Approval Requested By	Min. Food Area(sqf) Additional area might be required based on equipment, storage, quantity of food (produced/processes	DM Description	Activity name	Activity Code
----------------------------	--	----------------	---------------	---------------

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to import/export/sell baby food.	Baby Food Trading	4721017
--	--------------------	--	-------------------	---------

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	200	LE5;G12license to bake bread using traditional oven.	Baker (Bread only)	4781003
--	-----	--	--------------------	---------

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Manufacture of fresh, frozen or dry baked products. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	ر	1071001
--	--	---	---	---------

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	150	Food service license for preparation and sale of fresh juice to consumers for immediate consumption.	Beverages Canteen	4781009
--	-----	---	-------------------	---------

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Includes the reselling of fresh, frozen or dry bakery products.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Bread & Bakery Products Trading	4721013
--	--------------------	--	---------------------------------	---------

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	200(250 with shawarma)	Food service license for preparation and sale of snacks, sandwiches, hot and cold beverages and juice to consumers.	Cafeteria	5610003
--	------------------------	--	-----------	---------

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license for retorted or commercially canned food products.	Canned & Preserved Food Trading	4721032
--	--------------------	--	---------------------------------	---------

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	1000	Food service llsence for receiving, storing , preparation, cooking, packaging and service of Ready to Eat food to schools, businesses and consumers. Foods should be for immediate consumption only.	Catering Services	5629002
--	------	--	-------------------	---------

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	150	Food service license to prepare and serve hot and cold beverages; fresh juice; and display and sale of ready to eat snacks,sweets and ice cream	Coffee Shop	5630001
--	-----	---	-------------	---------

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	License for trading coffee beans in bulk of consumer packs.	Coffee Trading	4721012
--	--------------------	---	----------------	---------

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license for confectionary items.	Confectionery & Chocolate Trading	4721014
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	License for trading all types of dairy products. The establishment must have sufficient facilities for storage and transportation of products safely.	Dairy Products Trading	4721002
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	License for trading dates.	Dates Trading	4721022
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Total Area 5000(7000 with non halal activity)	Licse to sell all types of food directly to consumers. Such store may include a cafeteria to provide snacks.	Department Store	4719001
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading of dried or dehydrated fruits and vegetables.	Dried Vegetables & Fruit Trading	4721020
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading of poultry eggs for consumption.	Egg Trading	4721003
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	200	Food service license to sell, cut and clean fishes and sell directly to consumers. The business must have sufficient facilities to store, display, prepare fish.	Fish Seller	4781007
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	License to trade flavours, fruit extracts for food.	Flavours & Fragrances Trading .	4721035
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	License to trade wheat flour.	Flour Trading	4721043
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	License to trade any food and beverage intended for human consumption.	Food & Beverages Trading	4721101
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Supplying by contracts fresh or canned food stuff supplied by approved suppliers to other entities	Foodstuff Supply Services	4630211
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	License to sell fresh as well as commercially packed fish and other marine products.	Fresh Fish & Marine Animals Trading	4721006

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	License to trade all types of sea food in fresh or frozen form. The estbalishment should have all the facilities to handle and store frozen and chilled foods.	Frozen Fish & Seafood Trading	4721007
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	License to trade frozen poultry meat such as chicken, pigeons ducks, turkey etc.	Frozen Poultry Trading	4721011
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Warehousing license for firms to store food and food contact materials. The storage facility must be suitably located and have all facilities to handle food safely.	General Warehousing	5210002
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to sell fats, ghee and oil products	Ghee & Vegetable Oil Trading	4721029
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to packaging grain and ,packaging in commercial packs . The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Grains Packaging	1061004
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	300	Professional license that includes grinding of cerials,spices, coffee, etc. and packing in consumer packs. The establishment must have all necessary facilities and equipments, sufficient space based on the activity	Grinding Shop	4711005
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license that includes displying and selling of fresh, preserved and canned food supplied by approved suppliers	Grocery Store	4711003
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to sell honey and packaged honey products supplied by approved suppliers	Honey & Apiary Accessories Trading	4721018
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to sell ice cream and its packaed products supplied from approved suppliers	Ice Cream Trading	4721044
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to sell packed ice used in food activities supplied from approved suppliers	Ice Trading	4721019
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	250	Profissional license that includes preperation of ice cream for immediate cocemption. The establishment must have all necessary facilities and equipment, sufficient space based on the activity	Ice-Cream Shop	5610007
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to sell packed juices supplied from approved suppliers	Juice Trading	4722002

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	250	Professional license that includes preparation and selling of sweets for immediate consumption. The establishment must have all necessary facilities and equipment, sufficient space based on the activity	Local Sweets Preparing	5621007
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	250	Profissional license that includes meat selling, cutting and packing . The establishment must have all necessary facilities and equipment, sufficient space based on the activity	Meat Seller	4781008
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license for selling bottled miniral water supplied form approved suppliers	Mineral Water Trading	4722004
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to display and sell of packed food products supplied by approved suppliers	Mini Store	4711004
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to display and sell packed nuts supplied by approved suppliers	Nuts Trading	4721039
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	1000	Receiving, storing , preparation, cooking, packaging and service of Ready to Eat food to businesses and consumers. Foods should be for immediate consumption only.	Party Cook	5621002
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to display and sell packed pasrtries and sweets supplied from approved suppliers	Pastry Trading	4721015
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Display and sale of commercially fresh potato to consumers	Potatoes Trading	4721102
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	300	Profissional license to roasting food products like nuts, cerials and coffee beans, etc. and pack it in small consumer packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activity	Roastery	4711006
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to sell fish and seafood supplied from approved supplier	Salted & Preserved Fish & Seafood Trading	4721008
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Includes shops that display and and sell ready to eat sandwiches supplied by approved supplires to the consumers	Sandwich Shop	5621008
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to display packed and bottled beverages supplied from approved suppliers	Soft Drinks & Carbonated Water Trading	4722001

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to display dried and packed spices supplied from approved suppliers	Spices Trading	4721030
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	trading license to sell packed sugger supplied from approved suppliers	Sugar Trading	4721038
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	2000	Sale of commercially packaged foods, fresh foods including meat, fish and poultry products directly to consumers	Supermarket	4711002
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	250	Food service license to prepare, display and sell sweets, candies and fresh beverages directly to end consumer	Sweets & Candies Preparing	5630007
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Display and sale of commercially packed tea to consumers	Tea Trading	4721036
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading license to display and sell fresh fruits and vegetables supplied from approved suppliers	Vegetables & Fruit Trading	4721001
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture and package animal oil and fat. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Animal Oil & Fat Manufacturing	1040201
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture and package baby food. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Baby Food Manufacturing	1079011
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture and pack biscuits. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Biscuits Manufacturing	1071005
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture Butter product. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Butter Manufacturing	1050002
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Manufacturing license for carbonize/aerate bottled water. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Carbonated Water Manufacturing	1104203
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture ,process cereals and ,packaging in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Cereal Food Manufacturing	1061003

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture crunchy balls covered with cheese or cheese flavors. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Cheese Balls Manufacturing	1061010
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture cheese products. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Cheese Manufacturing	1050003
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture cocoa based candies products. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Cocoa & Chocolate Candies Manufacturing	1073102
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to process (roasting and packaging)coffee beans products. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Coffee Roasting & Packaging	1079005
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Warehousing license to store food items in refrigerated or frozen condition. The storage area must be equipped with loading and unloading facilities, and suitably located and have all facilities to handle food safely.	Cold Storage	5210004
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Total Area 5000	License to operate co-operative societies trading to sell all types of food directly to consumers. Such store may include different activities food preparation ,cooking, meat seller,fish seller The storage area must be equipped with loading and unloading facilities, and suitably located and have all facilities to handle food safely.	Co-Operative Society	4711001
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture Cream Of Milk products. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Cream Of Milk Manufacturing	1050005
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to produce crystallized sugar from crude sugar. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Crude Sugar Refining	1072001
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture ,process dairy products and ,packaging in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Dairy Products Manufacturing & Packing	1050001
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture date products. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Date Products Manufacturing	1030011
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to drying dates using thermal processing. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Dates Drying & Packaging	1030101
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to prepare and package dates. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Dates Preparing & Packaging	1030007

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	License to sell dates on benches and stalls inside regulated food markets.	Dates seller	4781005
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture dried and packed fruits & vegetables products. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Dry Fruit & Vegetables Packaging	1030005
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	300 The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Food service license for establishments that grill fish or meat for consumers as take-away only. Such establishments must have suitable preparation area, cooking and cleaning facilities based on the menu and processes.	Fish & Meat Grilling	5621005
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture canned seafood products. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Fish & Seafood Canning & Preserving	1020001
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to freeze and package seafood. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Fish & Seafood Freezing	1020002
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture flavours and fruit extracts used for food processing. When non-food fragrances, aromatic or cleaning products are manufactured, these processes must be completely segregated from food processes. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Flavors & Fragrances Manufacturing	1079012
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	150	Food service license that allows the sale of hot and cold beverages, juices, snacks and ice creams on boards ships, or cruises without preparation process . The establishment should have facilities to store and handle foods depending on the activity.	Floating Coffee Shop	5630006
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Retail license for boats equipped to operate mini stores to sell commercially packaged snack and refreshments. Such boats must have all the facilities to store and display food safely.	Floating Mini Store	4711009
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Retail food service license that allow display and sale of food and beverages in ships, boats and yachts without preparation process . There should be sufficient facilities to hold food at appropriate temperature, and food should be obtained from external caterers with appropriate license and activities.	Floating Restaurant	5610002
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	License to trade commercially packed fresh,chilled and frozen meat. Such establishments must have sufficient facilities to store foods when necessary.	Fresh & Chilled & Frozen Meat Trading	4721004
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	License to sell fresh and dried fruits and vegetables in stalls and kiosks in public markets directly to consumers.	Fruit & Vegetable Seller	4781001
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to freeze fruits , vegetables and packing in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Fruit & Vegetables Freezing	1030008

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture artificially flavoured fruit drinks and packing in commercial packs. Such establishments must have all facilities to commercially manufacture the drink safely.	Fruit Flavored Drinks Manufacturing	1104902
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture fresh juices from fresh fruits and packing in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Fruit Juices Manufacturing	1030009
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture canned fruits products and packing in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Fruits Canning & Packaging	1030001
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license for processing arabic gum products used for food processing and packing in commercial packs. When non-food products are manufactured, these processes must be completely segregated from food processes. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Gum Powder Manufacturing	1061101
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture ,process ice products :ice cream,iced cakes and sweets products and packaging in commercial packs . The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Ice Cream Manufacturing	1050006
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture iced tea and packing in commercial packs . The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Iced Tea Manufacturing	1104907
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture instant tea ingrediants and packing in commercial packs The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Instant Tea Preparation	1104905
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture and proses jam from fruits and packing in commercial packs . The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Jam Manufacturing	1030012
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture meat products and packing in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Meat Products Manufacturing	1010102
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to chill, freeze and or pack meat for commercial sale. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Meat chilling & Freezing	1010103

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture or process Natural(or organic) products.and packing in commercial packs The establishment shall have facilities to produce organic products and it should be segregated from other products during processing, production and storage.	Natural (organic) Food Manufacturing	1079031
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to process (roasting and packaging)Nuts products and packing in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Nuts Roasting & Packaging	1079007
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to producing pickles from fruits and vegetablesand packing in commercial packs . The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Pickle Processing	1030013
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture potato chips products and packing in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Potato Chips Manufacturing	1030006
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture poultry meat products and packing in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Poultry Products Manufacturing	1010902
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Kitchen Area (Min.300) The actual activy may require more space based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Food service license for preparation and sale of ready to eat foods, snacks and bevergates for immediate consumption by the consumers. The food establishment must ensure that preparation area, equipment and process flow are suitable and sufficient for the type and nature of food prepared in the facility.	Restaurant	5610001
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license for Rice Husking & Polishing process and ,packaging in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Rice Husking & Polishing	1061005
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture Tomato paste product and packing in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Tomato Paste Manufacturing	1030003
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture vegetables Ghee and ,packaging in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Vegetable Ghee Manufacturing	1040102
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to producing and Refining vegetables oil and packaging in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Vegetable Oil Production & Refining	1040101

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture canned and packed vegetables and legumes products. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Vegetables, Legumes Canning & Packaging	1030002
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture Yogurt products and packing in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Yogurt Manufacturing	1050004
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to process and package wheat flour. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Flour Mills	1061002
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture ,process grind or crush grains and crops , and commercially package it. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Grain Mills	1061001
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	License to refill different varieties of honey and syrups including natural bee honey, or extracts from dates and sugarcane; and refilling concentrated and flavoured syrups such as chocolate, caramel, strawberry etc.	Honey & Syrups Refilling	1104903
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture ,process chili sauce from mixing of fresh ingredients and packaging in commercial packs . The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Hot Sauce Manufacturing	1079015
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture, mix, process and commercially package instant coffee, coffee creamers liquid black coffee or mixed coffee extracts with milk and sugar and filling. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Instant & Liquid Coffee Preparation	1104904
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	100	License to prepare and sell fresh juice from fresh fruits for immediate consumption. The establishment should have all facility to ensure product safety.	Juice Preparing	5630003
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to commercially produce and package dry mixtures composed of natural and artificial ingredients for processing juices and ice cream. This activity does not include the production of juice and ice cream for final consumption.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Juice, Ice Cream & Dry Mixes Processing	1079102
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to produce and commercially pack liquid pasteurized egg for commercial establishments such as restaurants, hotels and catering companies.The pasteurization equipment should be suitable and the establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Liquid Pasteurized Egg Production	1079014

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to commercially process and package mayonnaise. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Mayonnaise Manufacturing	1079013
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to purify, sterilize, and bottle natural spring water in commercial packs.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Mineral Water Bottling	1104201
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture process of non Alcoholic malt beverage and packaging in commercial packs.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Non- Alcoholic Malt Beverage Manufacturing	1104101
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to commercially process and pack pasta and macaroni from flour.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Pasta & Macaroni Manufacturing	1074001
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to commercially process and pack pastry and sweets.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Pastry & Sweets Manufacturing	1071002
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture process of treating potable water and packaging in commercial packs.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Purification of Potable Water	1104202
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	license to package salt in consumer packs for final consumption from bulk containers. This does not include any processing prior to packaging.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Salt Packaging	1079008
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to commercially refine and package table salt for consumption. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Salt Refining	1079002
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading License to resell refined salt	Salt Trading	4721045
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture process of preparing and mixing of spices sauce, spices and seasonings and packaging in commercial packs.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Sauces, Spreads & Condiments Preparation	1104906
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to process, produce and commercially package sesame Halva from sesame seeds. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Sesame Halva Manufacturing	1073902

Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	Depends on process	Trading License to resell snacks packed in bags or well-sealed packs, such as potato chips or cheese balls etc.	Snack Food Trading	4721037
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture process of the soft drinks and packaging in commercial packs.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Soft Drinks Manufacturing	1104204
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to commercially process and package soups.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Soup Manufacturing	1079022
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	license to re-package dried and powdered spices, in commercial packs. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Spices Packaging	1079009
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture process of the candies such as caramels, mint and chewing gum, sugar-free candies are also included. and packaging in commercial packs.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Sugar Candies Manufacturing	1073901
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to commercially prepare and package sugar cubes.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Sugar Cubes Manufacturing	1072002
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	License for packaging refined sugar in consumer packs from bulk packs for final consumption. This doesnt not include any processing prior to packaging.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Sugar Packaging	1072003
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to manufacture process of the tahina from juice of the toasted or untoasted sesame and packaging in commercial packs,using for salad and making desserts. .The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Tahina Manufacturing	1079018
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	License for blending and packaging different types of tea for final consumption.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Tea Blending & Packaging	1079004
Food Safety Department Other Government authority when it is applicable(DM:Building licensing ,Planing, Drainge department, Civil defence department...)	The space requirements are based on: - complexity of food process - equipment used - amount of food produced - number of food handlers	Industrial license to commercially process and package vegetable and cheese spring rolls.The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Vegetables & Cheese Spring Rolls Manufacturing	1074005

Food Safety Department	The space requirements are based on:	Industrial license to manufacture vinegar from fruits, grains or other fermentable materials and commercially package it. The establishment must have all necessary facilities and equipment, sufficient space based on the activities; and work flow that ensures product safety.	Vinegar Manufacturing	1079017
Other Government authority when it is applicable(DM:Building licensing,Planing, Drainge department, Civil defence department...)	<ul style="list-style-type: none"> - complexity of food process - equipment used - amount of food produced - number of food handlers 			

Food Safety Department	The space requirements are based on:	Trading License for wholesale commercial complexes without any processing. This activity should be licensed under warehouses only.	Wholesale Supermarket	4690102
Other Government authority when it is applicable(DM:Building licensing,Planing, Drainge department, Civil defence department...)	<ul style="list-style-type: none"> - equipment used - amount of foodstuff items - number of food handlers
